Brian Olatunji and Drive Train Specialists Gear Up for 2010 NHRA Racing Season

Detroit, MI - February 10, 2010 – Aspiring NHRA Fuel Funny Car driver and 2005 Kettering University (formally GMI) graduate in Mechanical Engineering; Brian Olatunji and the Leadfoot Motorsports team are pleased to continue to fly the banner of Drive Train Specialists for the upcoming 2010 NHRA All Motor and Chaos heads-up divisions.

Fans rarely see the benefits of strong mechanical components and skilled technicians, however for a eighth consecutive season Brian O and the Leadfoot Motorsports team will continue to sing the praises of both as Drive Train Specialists will continue to partner with their program. This partnership began in 2003 and continues to be Brian O and Leadfoot Motorsports longest running partnership.

“Racers always speak of applying power to the racetrack however they very rarely speak of one of the most integral components, the rear end. As far as I’m concerned Drive Train Specialists is the only place to purchase and install components to apply power to get you down the track in a hurry. Drive Train Specialists has been on board with our program from day one and I am always humbled considering they believed in me when there was nothing more than a broke college student and a dream. For that I am forever thankful, said Olatunji”

Drive Train Specialist is a unique company because they provide rear end, driveshaft components, expert installation and service to not only the motorsports community but also for any make or model passenger vehicle. From your daily driver to the most specification specific application you can conceive.

Stated Olatunji, “We have had the reliability and durability of having the best rear end components in our hot rod since 2003 and we look forward to our continuing partnership with Drive Train Specialists!”

Value, value, value! That’s the primary focus of each of the programs the Leadfoot Motorsports team embarks upon when partnering. We are always excited to hear of the value proposition of our relationship from our partners.

“We personally thank Ms. Rissman and the entire Drive Train Specialists staff for their unwavering belief in our program and look forward to a promising 2010 season. To our many fans look for a dynamic marketing campaign filled with opportunities to interact with the Leadfoot Motorsports team as well as a sleek new paint scheme on the hot rod,” said a jubilant Olatunji.
